MUHAMMAD ZEESHAN

PHP LARAVEL FULL STACK WEB DEVELPOER

Contact: +923485420607 | **Email:** muhammadzeeshan5420@gmail.com

Location: Pakistan | **LinkedIn:** https://www.linkedin.com/in/muhammadzeeshan607/

CORE COMPETENCIES

- Database Design & Optimization
- Version Control & Deployment
- Problem Solving & Decision Making
- Performance Optimization & Security
- Both Front End and Back End Development
- Data Visualization
- Code Optimization
- Team Training & Development
- Agile Development & Collaboration
- Server Management
- API & Database Management
- Effective communication skills

SKILLS

- **Front-End:** HTML5, CSS3 (SASS), Bootstrap, JavaScript, jQuery, React.js, Redux Toolkit, Vue.js |
- **Back-End**: PHP (object oriented programming), Laravel, Node.js, Express.js |
- **Databases & Storage:** MySQL, MongoDB (intermediate level), Firebase |
- **DevOps & Cloud:** Docker, Digital Ocean, VPS (LAMP), GIT, CI/CD, Jenkins (basics) |
- **Tools & Other Skills:** Git, GitHub, Bitbucket, REST APIs, Postman, Laragon, PHPStorm, Trello, insomnia, API documentation, agile methodologies, Scrum and Sprints, PHP Pest Testing for Laravel, Problem-Solving & Critical Thinking, Team Collaboration & Training,
- **Design & UI/UX**: Photoshop, Adobe XD

PROJECTS & ACHIEVEMENTS

- **Personal Projects Development:** Developed a Movie Ticket Booking System, Employee Check-In/Out System, Event Management System (FYP), and Agile Board. Portfolio can be visited via given URL below.
- **Freelance Full Stack Development:** Successfully completed API integrations (Stripe, Twilio), server deployments, bug fixing, and performance optimizations for various clients.
- **API Development:** Built a custom SMS API using Twilio and a web scraping package using PHP OOP and Composer.

PROFILE SUMMARY

- Results-driven Full Stack Web Developer with expertise in React.js, Laravel, Node.js, and MySQL.
- Skilled in front-end and back-end development, database design, API integration, and performance optimization.
- Adept at building scalable web applications, enhancing user experience, and ensuring security in deployment environments.
- Successfully developed and deployed multiple projects, including Movie Ticket Booking System, Event Management System, and Custom API Development.
- Strong problem-solving skills with a focus on Agile methodologies, version control (Git, GitHub, Bitbucket), and DevOps practices.
- Experienced in server security hardening, payment gateway integration (Stripe, Twilio), and CI/CD pipelines.

EXPERIENCE AND EMPLOYMENT OUTLINE

Freelance PHP Full stack Developer

Self-employed / Various Clients | Nov'23 – Present | Recent Highlights

Leads and Reference based clients:

- Deployed and customized the Snipe-IT v6 asset management system (https://fluxera.co) on a Digital Ocean VPS, resolving 100% of PHP version compatibility issues and fixing all infinite redirect loops, improving system stability. Implemented a tenant registration email alert system that increased on boarding efficiency by 40%, configured MySQL permissions and VPS utilities for queue jobs, and optimized Apache settings for subdomain-based hosting, reducing server response times by 35%.
- Designed and optimized a US-based client's (https://d-n-j-world-designers-paradise.com/) WordPress website using Elementor Pro, configuring Imagify for automated image compression, reducing page load times by 30%, and improving Core Web Vitals score.
- Converted a static HTML, CSS, and Bootstrap 5 template into a fully functional, mobile-responsive WordPress theme, enhancing page rendering speed by 25% and ensuring full compatibility with WordPress core and third-party plugins.

Upwork:

- Diagnosed and resolved a critical file upload issue in a core PHP-based e-commerce store hosted on a Plesk server, conducting a live Zoom troubleshooting session, reducing downtime by 50% and restoring full system functionality.

Freelance React.js Front-end Developer

EnnVisions Limited – Islamabad, Pakistan | May'22 – July.'22

Key Deliverables:

- **Front-End Engineering:** Built 10+ reusable UI components in React.js using styled-components, enhancing development efficiency and ensuring seamless user experience.
- **Responsive Web Design:** Achieved 100% mobile responsiveness across all devices using media queries, Flexbox, and Tailwind CSS for scalable UI designs.

- **Server Security & Optimization:** Secured VPS servers using Fail2ban, SSH hardening, and firewall configurations, preventing hacking attempts.

EDUCATION CREDENTIALS

BS – Computer Science | Virtual University of Pakistan – Lahore, Pakistan -- (11/2019 - 11/2023)

CERTIFICATIONS

- **Front-end Web Development –** EVS Professional Training Institute, Rawalpindi (2018, 6 months)
- **Back-end Web Development –** EVS Professional Training Institute, Rawalpindi (2019, 6 months)

ADDITIONAL INFORMATION

- **Languages Known:** English (Advance), Urdu(Native)
- **Stack Overflow:** [Muhammad Zeeshan - Stack Overflow]
- **GITHUB:** https://github.com/Zeeshan607
- **Portfolio:** https://muhammadzeeshan.dev/

- **Performance Optimization:** Reduced page load time by 30% through modern image formats (.webp), asset optimization, and performance tuning techniques.
- **Code Optimization:** Minimized asset load time by 25% by compiling and compressing stylesheets and scripts using Webpack.
- **Version Control:** Utilized Git and GitHub for version control, ensuring streamlined collaboration in Agile environments through sprint planning and code reviews.

Laravel React Full Stack Developer
Sublime Logics – Sargodha, Punjab Pakistan | Jan.'21 – Jun.'21

Key Deliverables:

- **Payment Integration:** Integrated Stripe payment gateway, increasing transaction success rates by 15%, and developed secure APIs using Laravel Passport for authentication.
- **Communication Enhancement:** Implemented Twilio SMS service and an automated email notification system, improving communication efficiency by 20% while maintaining secure backend operations.
- **Full Stack Development:** Led front-end and back-end development using React.js and Laravel, ensuring smooth system integration and scalable deployment in cloud environments.
- **Database Management:** Designed and optimized relational databases (MySQL/PostgreSQL), improving query performance and data integrity for scalable applications.
