PHP Laravel Full Stack Web Developer

Experienced Full Stack Web Developer with a proven track record of success in building robust web applications. Proficient in a wide range of technologies and skilled in both front-end and back-end development, I am passionate about creating responsive and interactive user experiences. With a focus on clean, maintainable code and a commitment to continuous learning, I am dedicated to delivering high-quality solutions that drive business growth and exceed client expectations. Currently seeking new opportunities to leverage my expertise and contribute to the success of a dynamic company.

SKILLS

- HTML 5
- CSS3 (SCSS)
- JavaScript / jQuery
- React.js | REDUX toolkit
- Vue.js
- PHP (OOP)
- LARAVEL
- MySQL
- Node JS | Express JS
- GIT/GitHub/BITBUCKET
- Linux, Docker
- Photoshop & Adobe XD for Web

KEY ACHIEVEMENTS

2023-present

- **Personal Projects Development:** Innovated and delivered multiple projects, including a Movie Ticket Booking System, Employee Check-In/Out System, Event Management System (FYP), and Agile Board. More details are available on my portfolio.
- **Freelance Full Stack Development:** Collaborated with diverse clients sourced through various references as a freelance Laravel full stack developer. Managed tasks like server deployments, bug fixing, API integrations (e.g., Stripe payment method), email notification systems, query optimizations, and development of Vue and React.js based components.
- **API Development:** Engineered a robust SMS API using the Twilio package in object-oriented PHP, alongside a Composer package for scraping Google search results.
- **Server Acquisition and Configuration:** Procured a VPS server to host a personal portfolio, successfully configured the LAMP stack, and managed PHP versions with FPM.
- **Enhanced Server Security:** Fortified VPS against hack attempts using Fail2ban, disabling root login, modifying SSH port, and activating firewall features.

WORK EXPERIENCE

EnnVisions Limited – Islamabad Pakistan

May- OCT 2022 (6 mos.)

React.js Front end developer

- Successfully developed 10+ component-based UIs in React.js using styled-components, enhancing modularity and reusability.
- Achieved 100% responsiveness for all devices by implementing media queries and flexbox, leading to improved user experience across platforms.
- Enhanced page load speed by 30% through the use of modern image formats (.webp) and compressed stylesheets/scripts.
- Reduced asset load times by 25% by compiling and compressing stylesheets and scripts using webpack.

Sublime Logics - Sargodha, Punjab Pakistan

Jan – Jun 2021 (6 mos.)

Laravel React Full Stack Developer

- Collaborated on both front-end and back-end tasks, ensuring seamless integration and functionality.
- Implemented payment gateways and conducted testing for live payment transactions, increasing transaction success rate by 15%.
- Developed and maintained front-end designs using React.js and Laravel blade templates, enhancing user interface consistency.
- Created APIs using Laravel Passport and documented them, improving API accessibility and security.
- Integrated Twilio SMS service and established an email notification system, enhancing communication efficiency by 20%.
